NL ARMS

Netherlands Annual Review of Military Studies

Editor-in-chief: P. Oonincx

L. Vos (Ed.)

The series aims to create an overview of scientific research in military sciences and it shows the extent to which researchers of the Faculty of Military Sciences (FMS) of the Netherlands Defence Academy contribute to this field of expertise. Research at the Faculty is confined to military-relevant, multi-disciplinary areas and therefore deals with issues relating, among others, to: - Command and control in military operations - Leadership and ethics - Military law and history - Operational analysis - Navigation - Combat systems - Military platforms - Cyber warfare The series is peer-reviewed and reflects the diversity and quality of the Faculty of Military Sciences at its best. With the NL-ARMS the FMS hopes to serve as a trigger for more international comparative research on military sciences.
