Curriculum Studies Worldwide

Series Editors: W.F. Pinar, J.L. Miller

This series supports the internationalization of curriculum studies worldwide. At this historical moment, curriculum inquiry occurs within national borders. Like the founders of the International Association for the Advancement of Curriculum Studies, we do not envision a worldwide field of curriculum studies mirroring the standardization the larger phenomenon of globalization threatens. In establishing this series, our commitment is to provide support for complicated conversation within and across national and regional borders regarding the content, context, and process of education, the organizational and intellectual center of which is the curriculum.
