

## **Current Human Cell Research and Applications**

Series Editors: N. Shinomiya, H. Kataoka, Y. Shimada

This series covers basic and clinical research on human cells, including molecular diagnostics/targeted therapy, cell therapy, cancer stem cells, regenerative medicine, etc., and provides an up-to-date review of human-cell research. All volumes are contributed by leading experts in the field, and offer valuable resources for both cell biologists and clinical researchers in the areas of oncology, stem cell biology, regenerative medicine, and clinical medicine including gynecology, gastroenterology, etc.

*Current Human Cell Research and Applications* will be published in partnership with the Japan Human Cell Society
