

## **The Great Transformation of China**

China's Economic Transformation, Innovation and Development

Series Ed.: F. Chi

China is facing unprecedented challenges in its continued modernization process. This series brings together government insiders, academics, and policymakers in articulating specific social and political issues that China is trying to resolve, offering scholars around the world insights into what China's leadership see as the biggest challenges facing the nation and how best to resolve them. The series publishes monographs and edited volumes with contributions on a global basis dedicated to ground-breaking research on the Chinese modernization process.
