Ultrasound and Sonochemistry

Subseries of SpringerBriefs in Molecular Science

Series Editors: B.G. Pollet, M. Ashokkumar

SpringerBriefs in Molecular Science: Ultrasound and Sonochemistry is a series of concise briefs that present those interested in this broad and multidisciplinary field with the most recent advances in a broad array of topics. Each volume compiles information that has thus far been scattered in many different sources into a single, concise title, making each edition a useful reference for industry professionals, researchers, and graduate students, especially those starting in a new topic of research.
