

SpringerBriefs in Advanced Information and Knowledge Processing

Subseries of Advanced Information and Knowledge Processing

Series Editors: X. Wu, L. Jain

SpringerBriefs in Advanced Information and Knowledge Processing presents concise research in this exciting field. Designed to complement Springer's *Advanced Information and Knowledge Processing* series, this Briefs series provides researchers with a forum to publish their cutting-edge research which is not yet mature enough for a book in the *Advanced Information and Knowledge Processing* series, but which has grown beyond the level of a workshop paper or journal article. Typical topics may include, but are not restricted to:

Big Data analytics

Big Knowledge

Bioinformatics

Business intelligence

Computer security

Data mining and knowledge discovery

Information quality and privacy

Internet of things

Knowledge management

Knowledge-based software engineering

Machine intelligence

Ontology

Semantic Web

Smart environments

Soft computing

Social networks

SpringerBriefs are published as part of Springer's eBook collection, with millions of users worldwide and are available for individual print and electronic purchase. Briefs are characterized by fast, global electronic dissemination, standard publishing contracts, easy-to-use manuscript preparation and formatting guidelines and expedited production schedules to assist researchers in distributing their research fast and efficiently.
