The Annals of Regional Science

An International Journal of Urban, Regional and Environmental Research and Policy

Editors: J.E. Kohlhase; M. Andersson; H.S. Kim

▶ Explores the interdisciplinary field of regional and urban studies
▶ Publishes papers which make substantial contributions to the body of knowledge in which the spatial dimension plays a fundamental role
▶ Official Journal of the Western Regional Science Association

Please note, we are currently updating the 2018 Journal Metrics.

The Annals of Regional Science presents high-quality research in the interdisciplinary field of regional and urban studies. The journal publishes papers which make a new or substantial contribution to the body of knowledge in which the spatial dimension plays a fundamental role, including regional economics, resource management, location theory, urban and regional planning, transportation and communication, population distribution and environmental quality.

The Annals of Regional Science is the official journal of the Western Regional Science Association.
