Experimental Brain Research
Co-Editors-in-Chief: J.C. Rothwell; W. Byblow

- 99% of authors who answered a survey reported that they would definitely publish or probably publish in the journal again

Founded in 1966, Experimental Brain Research publishes original contributions on many aspects of experimental research of the central and peripheral nervous system. The focus is on molecular, physiology, behavior, neurochemistry, developmental, cellular and molecular neurobiology, and experimental pathology relevant to general problems of cerebral function. The journal publishes original papers, reviews, and mini-reviews.

Impact Factor: 1.806 (2017), Journal Citation Reports®
