## Heat and Mass Transfer

Wärme- und Stoffübertragung

Editor-in-Chief: A. Luke

- ▶ Covers the complete area of heat and mass transfer with relations to engineering thermodynamics and fluid mechanics
- ▶ Publishes results from basic research as well as engineering applications, such as heat exchangers, process and chemical engineering
- ▶ Covers experimental techniques as well as analytical and computational approaches
- ▶ 92% of authors who answered a survey reported that they would definitely publish or probably publish in the journal again

This journal is dedicated to publishing new developments in the field of basic research of heat and mass transfer phenomena, as well as related material properties and their measurements, thereby promoting applications to engineering problems.

Formerly titled "Wärme- und Stoffübertragung," the journal has been publishing under the title "Heat and Mass Transfer" since 1995.

Impact Factor: 1.551 (2018), Journal Citation Reports®
