Immunogenetics
Editor-in-Chief: R.E. Bontrop
Co-Editors: M. Kasahara; M. Flajnik

- Long tradition in publishing on genetics and biochemistry of the immune system
- Emphasis on MHC in health and disease
- Journal of choice for immunogenomics of multigene families, with a focus on evolution
- Speedy and comprehensive peer reviews

*Immunogenetics* publishes original papers, brief communications, and reviews on research in the following areas: genetics and evolution of the immune system; genetic control of immune response and disease susceptibility; bioinformatics of the immune system; structure of immunologically important molecules; and immunogenetics of reproductive biology, tissue differentiation, and development.

Impact Factor: 2.092 (2016), Journal Citation Reports®
