## European Journal of Nuclear Medicine and Molecular Imaging

Editor-in-Chief: I. Carrio

- ▶ Official Journal of the European Association of Nuclear Medicine (EANM)
- ▶ Offers information for the nuclear medicine community and allied professions involved in the functional, metabolic and molecular investigation of disease
- ▶ Coverage extends to physics, dosimetry, radiation biology, radiochemistry and pharmacy
- ▶ Presents in-depth reviews, short communications, controversies, interesting images and letters to the Editor
- ▶ 96% of authors who answered a survey reported that they would definitely publish or probably publish in the journal again
- ▶ Free app available on iTunes and Google Play Store

Highly ranked among journals in its field, the European Journal of Nuclear Medicine and Molecular Imaging provides a forum for the exchange of clinical and scientific information for the nuclear medicine community and allied professions involved in the functional, metabolic and molecular investigation of disease. The journal remains of primary interest to practitioners in the field of nuclear medicine but also reports on original work relating to physics, dosimetry, radiation biology, radiochemistry and pharmacy. Original material examines the field of molecular imaging probes, reporter gene assays, cell trafficking, targeting of endogenous gene expression and antisense methodologies.

The Journal publishes in-depth reviews of topical interest, short communications, controversies, interesting images and letters to the Editor.

This is the official journal of the European Association of Nuclear Medicine (EANM). EANM members, and also members of the Japanese, Korean and Italian nuclear medicine societies have free access to EJNMMI. As part of this reciprocal agreement, EANM members also have free access to "Annals of Nuclear Medicine", "Nuclear Medicine and Molecular Imaging" and to "Clinical and Translational Imaging".

Peer review is conducted using Editorial Manager®, supported by a database of international experts.

Impact Factor: 7.704 (2017), Journal Citation Reports®
