Abdominal Radiology
Editor-in-Chief: C.D. Johnson

- 93% of authors rated the overall publishing process as excellent or good and 83% of authors are likely to submit to the journal again.
- Regular publication of special focus sections edited by experts in the field.
- Journal offers CME activities for readers and for reviewers.

Abdominal Radiology seeks to meet the professional needs of the abdominal radiologist by publishing clinically pertinent original, review and practice related articles on the gastrointestinal and genitourinary tracts and abdominal interventional and radiologic procedures. Case reports are generally not accepted unless they are the first report of a new disease or condition, or part of a special solicited section.
