Stochastics and Partial Differential Equations: Analysis and Computations

Editor-in-Chief: A. Debussche

- Reports on significant new developments in the theory and applications of SPDEs
- Covers stochastic processes, partial differential equations and scientific computing
- Intersects with statistical physics, fluid dynamics, financial modeling, nonlinear filtering, super-processes, continuum physics and other disciplines

The journal Stochastics and Partial Differential Equations reports on significant new developments in the theory and applications at the crossroads of stochastic analysis, partial differential equations and scientific computing.
