Current Surgery Reports
Editor-in-Chief: A.C. Fischer

- Offers expert review articles on significant recent developments on surgical techniques/outcomes
- International authorities serve as editorial board members and section editors
- Covers endocrine surgery, transplantation, bariatric surgery, CT screening for lung cancer, pelvic floor disorders, and more

This journal provides in-depth review articles contributed by international experts on the most significant developments in the field. By presenting clear, insightful, balanced reviews that emphasize recently published papers of major importance, the journal intends to serve those for whom the elucidation of novel surgical techniques and related technologies is essential.
