Journal of Control, Automation and Electrical Systems

formerly CONTROLE & AUTOMAÇÃO

Editor-in-Chief: A. Padilha Feltrin

Editor-in-Chief Emeritus: I. Nunes da Silva

- ▶ Combines theoretical developments and application studies on highly promising themes involving the state-of-the-art research
- ▶ Offers a truly interdisciplinary forum in industrial automation, intelligent systems, robotics, control theory and power systems.
- ▶ Offers a highly respected and reliable international forum and efficient peer-review.
- ▶ Excellent response time from submission to first decision.
- ▶ Publishes articles online first within 30 days of acceptance.

This journal covers industrial automation, addressing such topics as Circuits and Systems; Control Theory and Applications; Discrete Event Systems; Education in Control, Automation; Electronic and Biomedical Instrumentation.
