Journal of Modern Power Systems and Clean Energy
Editor-in-Chief: Y. Xue

- Timely reports on advanced research findings, academic reviews and hot-topic commentaries in fields related to modern power systems and clean energy
- Serves as a communication platform for power system technologies and engineering for both academics and those working in industry
- Open access sponsored by the State Grid Electric Power Research Institute

Journal of Modern Power Systems and Clean Energy is dedicated to presenting top-level academic achievements in the fields of modern power systems and clean energy by international researchers and engineers, and is endeavoured to serve as a bridge between Chinese and global researchers in the power industry.

Regular articles or letters from both inland and outside China are welcome.

Impact Factor: 2.122 (2017), Journal Citation Reports®

Giving authors in their area of expertise the opportunity to publish open access

- High visibility thanks to unrestricted online access
- Rigorous peer-review and high-quality author services
- Creative Commons licensed – authors retain copyright
- Citation tracking and inclusion in bibliographic databases
- Easy compliance with open access mandates
