Journal of Child & Adolescent Trauma

Editor-in-Chief: R. Geffner

- ▶ Offers original research, prevention and treatment strategies for the psychological effects of trauma
- ▶ Draws on the disciplines of psychology, medicine, social work, sociology, public health and law
- ▶ Publishes in collaboration with the Child Advocacy Studies Training (CAST) program, University of South Carolina Upstate

This journal offers original research and prevention and treatment strategies for the psychological effects of trauma. Presents intervention models for the individual, the family and the community, new theoretical models, public policy proposals and more.
