

## Archive for History of Exact Sciences

Editors-in-Chief: J.Z. Buchwald; J. Gray

- ▶ **Casts light upon the conceptual groundwork of the sciences by analyzing the historical course of mathematical thought and the precise theory of nature.**
- ▶ **Covers mathematics, natural philosophy, and the physical and biological sciences.**
- ▶ **Gives rapid and full publication to writings of exceptional depth, scope, and permanence.**

The Archive for History of Exact Sciences casts light upon the conceptual groundwork of the sciences by analyzing the historical course of mathematical and quantitative thought and the precise theory of nature, embracing as well their connections to experiment in the physical and modern biological sciences. This journal nourishes historical research meeting the standards of the mathematical sciences. Its aim is to give rapid and full publication to writings of exceptional depth, scope, and permanence.

Impact Factor: 0.706 (2018), Journal Citation Reports®
