Marine Systems & Ocean Technology

Editors-in-Chief: T. Sato; J.D. Caprace

- ▶ A multidisciplinary journal covering leading edge research in marine systems and ocean technology
- ▶ Includes fresh contributions in naval architecture, engineering, meteorology, mathematics and more
- ▶ Official Journal of Sociedade Brasileira de Engenharia Naval
- ▶ Indexed in Scopus since 2019

A quarterly international journal which covers broad and interdisciplinary aspects of marine and ocean engineering, including naval architecture. It provides a forum for promoting and discussing scientific and technological developments in these fields.
