Journal of the Economic Science Association

A Companion Journal to Experimental Economics

Editors-in-Chief: N. Nikiforakis; R. Slonim

- ▶ Promotes research on methods which illuminate important economic questions which are difficult to examine using naturally occurring data
- ▶ Employs experimental methods to advance theoretical, empirical, methodological and policy-relevant knowledge
- ▶ Published under the auspices of the Economic Science Association

This journal advances theoretical, empirical, methodological and policy-relevant knowledge using experimental methods, and promotes research on methods which address important economic questions that are difficult to examine using naturally occurring data.
