

Radiation and Environmental Biophysics

Editors-in-Chief: A.A. Friedl; W. Rühm; A. Wojcik

- ▶ Coverage includes biophysics of ionizing radiation, biological effects of radiation and risk assessment
- ▶ Focuses on fundamental issues in radiation research and biophysics
- ▶ Presents theoretical-mathematical and experimental material, as well as new techniques relevant for the study of these issues
- ▶ 100% of authors who answered a survey reported that they would definitely publish or probably publish in the journal again

Contributions may include those on radiobiology, health and medical physics, environmental protection, risk estimation and applied radiation research.

4 issues/year
