Journal of Geovisualization and Spatial Analysis
Editor-in-Chief: H. Yan; M. Peterson; Z. Li

- The first named journal of geo-analysis and visualization in the world
- Focus is on geo-visualization and spatial analysis, including cartography and visualization of geographic phenomenon and procedures, and not, as in competing Journals, on innovations as related to computer science
- There is no restriction on the length of the papers
- Provides an advanced forum for the theories and applications of geo-spatial analysis and visualization in diverse fields such as cartography, geographic information sciences/systems, remote sensing, photogrammetry, and global positioning systems.
