International Archives of Occupational and Environmental Health
Editor-in-Chief: H. Drexler

► 94% of authors who answered a survey reported that they would definitely publish or probably publish in the journal again

*International Archives of Occupational and Environmental Health* publishes Editorials, Review Articles, Original Articles, and Letters to the Editor. It welcomes any manuscripts dealing with occupational or ambient environmental problems, with a special interest in research at the interface of occupational health and clinical medicine. The scope ranges from Biological Monitoring to Dermatology, from Fibers and Dust to Human Toxicology, from Nanomaterials and Ultra-fine Dust to Night- and Shift Work, from Psycho-mental Distress and Burnout to Vibrations. A complete list of topics can be found on the right-hand side under **For authors and editors**.

In addition, all papers should be based on present-day standards and relate to

- Clinical and epidemiological studies on morbidity and mortality
- Clinical epidemiological studies on the parameters relevant to the estimation of health risks
- Human experimental studies on environmental health effects. Animal experiments are only acceptable if relevant to pathogenic aspects.
- Methods for studying the topics mentioned above.

Impact Factor: 2.148 (2017), Journal Citation Reports®
