SN Applied Sciences

Managing Editor:

C. Chuwah; A. Fatemi; E. Collado Fregoso; Th. Von Larcher; N. Ranjbar Sahraie

- ▶ **No colour or page charges, free to submit, free to access for the first two publication years**
- ▶ **Fosters strong international interdisciplinary applied science content to a wide readership**
- ▶ **Presents sound science discovery to solve practical problems in an innovative way**
- ▶ **Rapid publication of articles with high visibility**

SN Applied Sciences is a broad-based interdisciplinary journal for the disciplines of Chemistry, Earth and Environmental Sciences, Engineering, Material Science and Physics. It is an international, peer-reviewed journal which fosters sound scientific discovery to solve practical problems. The journal encourages articles which present a good understanding of scientific knowledge, theories, methods and techniques as well as interdisciplinary linkages. SN Applied Sciences publishes quality, scientifically valid, original research papers. It welcomes review articles as well as short communications. Case studies and letters are also considered by the Managing Editors.

Now open for submissions!
