Parasitology Research

Founded as Zeitschrift für Parasitenkunde
Editors: B. Chobotar; U. Ryan; J. Walochnik

- Takes a thorough, wide-ranging view of parasites and their mechanisms of operation
- Covers a range of related fields
- Examines use of chemotherapy in treatment of parasitic diseases
- 99% of authors who answered a survey reported that they would definitely publish or probably publish in the journal again

The journal Parasitology Research covers the latest developments in parasitology across a variety of disciplines, including biology, medicine and veterinary medicine. Among many topics discussed are chemotherapy and control of parasitic disease, and the relationship of host and parasite.

Other coverage includes: Protozoology, Helminthology, Entomology; Morphology (incl. Pathomorphology, Ultrastructure); Biochemistry, Physiology including Molecular Biology; Parasite-Host-Relationships including Immunology and Host Specificity; Life History, Ecology and Epidemiology; and Diagnosis, Chemotherapy and Control of Parasitic Diseases.

Impact Factor 2017: 2.558
