Einstein Studies

Series Editors: D. Howard, D.L. Kormos-Buchwald

Edited by

Howard, D., University of Notre Dame, Notre Dame, IN, USA, Center for Einstein Studies, Boston University, USA / Kormos-Buchwald, D.L., California Institute of Technology, Pasadena, CA, USA

Einstein Studies is a multidisciplinary series, reflecting the wide variety of Einstein's own contributions to our century. The series emphasizes the history of twentieth-century science, but will also welcome works in the philosophy of science, as well as social, cultural, and political history. Original research in physics, mathematics, and philosophy will also be published in cases where such research explores the implications of Einstein's work for contemporary issues.

Editorial Advisory Board

Giovanni Amelino-Camelia, Università di Roma La Sapienza, Italy
