Combiamlicia
Editors-in-Chief: L. Babai; L. Lovász; A. Schrijver

- An international journal of the János Bolyai Mathematical Society.
- Publishes research papers on a variety of areas of combinatorics and the theory of computing.
- Places emphasis on general techniques and unifying principles.

Combiamlicia is an international journal of the János Bolyai Mathematical Society. It publishes research papers on a variety of areas of combinatorics and the theory of computing, with particular emphasis on general techniques and unifying principles.

Coverage in Combinatorica includes:

- combinatorial structures (graphs, hypergraphs, matroids, designs, permutation groups)
- combinatorial optimization
- combinatorial aspects of geometry and number theory
- algorithms in combinatorics and related fields
- computational complexity theory
- randomization and explicit construction in combinatorics and algorithms.

Impact Factor: 1.406 (2017), Journal Citation Reports®
