Multimedia Systems

Editor-in-Chief: Th. Plagemann

- ▶ Serves as a forum for stimulating and disseminating innovative research ideas, emerging technologies, state-of-the-art methods and tools in all aspects of multimedia computing, communication, storage, and applications among researchers, engineers, and practitioners.
- ▶ Features theoretical, experimental, and survey articles.

This journal details innovative research ideas, emerging technologies, state-of-the-art methods and tools in all aspects of multimedia computing, communication, storage, and applications. It features theoretical, experimental, and survey articles.

Coverage in *Multimedia Systems* includes:

- Integration of digital video and audio capabilities in computer systems
- Multimedia information encoding and data interchange formats
- Operating system mechanisms for digital multimedia
- Digital video and audio networking and communication
- Storage models and structures
- Methodologies, paradigms, tools, and software architectures for supporting multimedia applications
- Multimedia applications and application program interfaces, and multimedia endsystem architectures.

Impact Factor: 1.956 (2018), Journal Citation Reports®
