Social Indicators Research Series

Series Ed.: A.C. Michalos

This series aims to provide a public forum for single treatises and collections of papers on social indicators research that are too long to be published in our journal *Social Indicators Research*. Like the journal, the book series deals with statistical assessments of the quality of life from a broad perspective. It welcomes research on a wide variety of substantive areas, including health, crime, housing, education, family life, leisure activities, transportation, mobility, economics, work, religion and environmental issues. These areas of research will focus on the impact of key issues such as health on the overall quality of life and vice versa. - An international review board, consisting of Ruut Veenhoven, Joachim Vogel, Ed Diener, Torbjorn Moum and Wolfgang Glatzer, will ensure the high quality of the series as a whole. Available at 25% discount for International Society for Quality-of-Life Studies (ISQOLS). For membership details please contact: ISQOLS; e-mail: office@isqols.org
Editors: Ed Diener, University of Illinois, Champaign, USA; Wolfgang Glatzer, J.W. Goethe University, Frankfurt am Main, Germany; Torbjorn Moum, University of Oslo, Norway; Ruut Veenhoven, Erasmus University, Rotterdam, The Netherlands.
