Reviews in Fluorescence

Series Editors: C.D. Geddes, J.R. Lakowicz

This annual review series differs from Springer's current Topics in Fluorescence series in that it is more specialized and includes reviews of an individual's own work or scientific perspective. *Reviews in Fluorescence* will therefore complement the other fluorescence titles published by Springer, whilst feeding the requirement from the fluorescence community for annual informative updates and developments.

Key features:

- *Reviews in Fluorescence* will be citable, indexed, and available both in print and online.

- *Reviews in Fluorescence* will be published annually.

- *Reviews in Fluorescence* will comprise invited review articles that summarize the yearly progress in fluorescence.
