Modern Birkhäuser Classics

Many of the original research and survey monographs in pure and applied mathematics, as well as textbooks, published by Birkhäuser in recent decades have been groundbreaking and have come to be regarded as foundational to the subject. Through the **MBC Series**, a select number of these modern classics, entirely uncorrected, are being re-released in paperback (and as eBooks) to ensure that these treasures remain accessible to new generations of students, scholars, and researchers.

Recently published:

P. Falb

Methods of Algebraic Geometry in Control Theory: Part II

Multivariable Linear Systems and Projective Algebraic Geometry

A.V. Cherkhev, R. Kohn (Eds.)

Topics in the Mathematical Modelling of Composite Materials

P. Falb

Methods of Algebraic Geometry in Control Theory: Part I

Scalar Linear Systems and Affine Algebraic Geometry
