Springer Series in Biophysics

Series Ed.: B. Martinac

The "Springer Series in Biophysics" spans all areas of modern biophysics, such as molecular, membrane, cellular or single molecule biophysics. More than that, it is one of the few series of its kind to present biophysical research material from a biological perspective.

All postgraduates, researchers and scientists working in biophysical research will benefit from the comprehensive and timely volumes of this well-structured series.

Recently published:

J.A. Fornés
