Springer Series in Materials Science

Series Editors: R. Hull, C. Jagadish, Y. Kawazoe, R.M. Osgood, J. Parisi, U.W. Pohl, T.-Y. Seong, S.-i. Uchida, Z.M. Wang

The Springer Series in Materials Science covers the complete spectrum of materials research and technology, including fundamental principles, physical properties, materials theory and design. Recognizing the increasing importance of materials science in future device technologies, the book titles in this series reflect the state-of-the-art in understanding and controlling the structure and properties of all important classes of materials.
