

Wildlife Research Monographs

Series Editors: B. Arroyo, J.T. Garcia, R. Mateo

The book series on “Wildlife Research Monographs” focuses on all aspects of wildlife biology to fill a vital niche at the intersection of several disciplines. The aim of the series is to summarize knowledge about interaction between wildlife species, their habitats, as well as human activities. Main areas are: wildlife ecology, diseases, toxicology, conservation, management, and the sustainable use of natural resources. The series addresses graduate students, university teachers, scientists and professionals.
