

Global Migration Issues

Series Ed.: F. Laczko

This book series contributes to the global discussion about the future of migration policy through the publication of a series of books on emerging migration issues. Most reports on migration policy tend to focus on national or regional perspectives; books in this series will focus on global policy challenges, such as the impact of climate change or the global economic crisis, on migration. This series is closely linked to the production of IOM's World Migration Report. Some of the books in this series will be based on research which has been prepared for the World Migration Report. The series also includes a special focus on the linkages between migration and development, and the themes discussed each year at the Global Forum on Migration and Development (GFMD), given the growing policy interest in harnessing the benefits of migration for development.
