Football and Supporter Activism in Europe

Whose Game Is It?

Series: Football Research in an Enlarged Europe

- ▶ **Analyses the convergence and differences between fan culture and representation in a variety of European countries**
- ▶ **Considers football supporters as something more and other than hooligans or consumers**
- ▶ **Presents the most up-to-date empirical research in the nascent phenomenon of supporters' activism in Europe**

This book is the first to explore and compare football governance, fandom culture and supporter engagement in Europe. With a specific focus on supporter activism and campaigning, the collection provides a comparative study of several European countries. The authors argue that supporters, despite being the pillar or the 'lifeblood' of their club, see their role in football governance marginalised. The volume is unique in that it challenges the widely accepted assumption that membership football clubs encourage the democratic participation of supporters.

Covering football fandom in both the traditional 'big five' leagues and non-'big five' countries such as Portugal, Turkey, Croatia, Poland and Czech Republic, the volume will be of interest to students and scholars across a range of disciplines, including sociology, history, sport management, sport governance and political science.
