# Reintegration Strategies

## Conceptualizing How Return Migrants Reintegrate

- Provides a thought-provoking analysis of the gendered ideologies that affect women's experiences of (return) migration
- Makes a valuable contribution to the emerging field of reintegration studies
- Demonstrates that both the return migrant and the country of origin must adapt for reintegration to take place

This book critically examines and theorizes the process of how return migrants reintegrate into their countries of origin. The result is a new methodology for understanding the experiences of return migrants, or their 'reintegration strategies'. This approach demonstrates that reintegration strategies differ by type of return migrant, leading to variations in how far they are able to contribute to the development of their nation states. The author uses female return migration to Ethiopia as a case study, focusing on the impact of gender on reintegration strategies to analyse the connection between return migration and social change. This book will appeal to scholars of migration and refugee studies, as well as a wider audience of sociologists, anthropologists, demographers and policy makers.
