Geriatric Practice

A Competency Based Approach to Caring for Older Adults

- The first competency based approach to geriatric medicine
- Features competency guidelines, quick reference appendices, and case studies to focus on the core competency requirements
- Chapters follow a consistent format for a uniform learning structure
- Written by experts in the field

This book serves as a comprehensive reference for the basic principles of caring for older adults, directly corresponding to the key competencies for medical student and residents. These competencies are covered in 10 sections, each with chapters that target the skills and knowledge necessary for achieving competency. Each of the 45 chapters follow a consistent format for ease of use, beginning with an introduction to the associated competency and concluding with the most salient points for mastery. Chapters also includes brief cases to provide context to the clinical reasoning behind the competency, strengthening the core understanding necessary to physicians of the future. Written by expert educators and clinicians in geriatric medicine, Geriatric Practice is key resource for students in geriatric medicine, family and internal medicine, specialties, hospice and nursing home training, and all clinicians studying to work with aging patients.
