Computer Science : Web Development

Mardan, Azat, San Francisco, CA, USA

Practical Node.js

Building Real-World Scalable Web Apps

- Second edition fully updated for the latest versions of Node (6) and npm (3), making this one of the best and most up-to-date resources on the market
- Written by successful author and speaker, Azat Mardan
- Now includes Pug, Docker, and the latest versions of Express, Mongoose, Mocha and Hapi

Learn how to build a wide range of scalable real-world web applications using a professional development toolkit. If you already know the basics of Node.js, now is the time to discover how to bring it to production level by leveraging its vast ecosystem of packages. With this book, you'll work with a varied collection of standards and frameworks and see how all those pieces fit together. Practical Node.js takes you from installing all the necessary modules to writing full-stack web applications. You'll harness the power of the Express.js and Hapi frameworks, the MongoDB database with Mongoose and Mogo.
