Gender Relations in Public and Private

New Research Perspectives

This collection of papers from the 1993 BSA 'Research Imaginations' conference explores the interpenetration of the public and private spheres. The book comprises two sections, one dealing with aspects of employment and finance, the other with domesticity and intimacy. Topics covered include the changing emotional geography of workplace and home, the gendering of aspects of employment and organisation, marital finance and gendered inheritance, the management of food and domestic labour, researching the emotions, and understanding intimate violence.
