

Keith Rayner (Ed.)

Eye Movements and Visual Cognition

Scene Perception and Reading

Series: Springer Series in Neuropsychology

Edited by a leading scholar in the field, *Eye Movements and Visual Cognition* presents an up-to-date overview of the topics relevant to understanding the relationship between eye movements and visual cognition, particularly in relation to scene perception and reading. Cognitive psychologists, neuropsychologists, educational psychologists, and reading specialists will find this volume to be an authoritative source of state-of-the-art research in this rapidly expanding area of study.
