The Structural Geology Contribution to the Africa- Eurasia Geology: Basement and Reservoir Structure, Ore Mineralisation and Tectonic Modelling

Proceedings of the 1st Springer Conference of the Arabian Journal of
Geosciences (CAJG-1), Tunisia 2018

- **Presents the state-of-the-art regarding the geology and structure of basement and reservoirs in the broader Mediterranean-African region**
- **Includes case studies showing the structural control on ore deposits and hydrothermal fluid-rock interaction in various tectonic settings**
- **Provides new structural, stratigraphic and temporal constraints to refine the tectonic evolution of the Alpine-Himalayan convergence zone**
- **Contributes to refine the approach to tectonic modelling**

This edited volume is based on the best papers accepted for presentation during the 1st Springer Conference of the Arabian Journal of Geosciences (CAJG-1), Tunisia 2018. The book is of interest to all researchers in the fields of Structural Geology, Stratigraphy, Ore Deposits, Regional Tectonics and Tectonic Modelling. This volume offers an overview of multidisciplinary studies on the broader Africa-Eurasia geology. Main topics include: 1. Basement Geology 2. Fluid-rock interaction, hydrothermalism and ore deposits 3. Reservoir geology, structure and stratigraphy 4. Mediterranean Tectonics 5. The Alpine-Himalayan convergence zone 6. Tectonic Modelling
