María Alejandra Alvarez

Pharmacological Properties of Native Plants from Argentina

- Covers native plants species from Argentina, addressing their medicinal properties, vernacular names, and uses in folk medicine
- Includes information on the botanical characteristics, distribution, active principles, and toxicity for each species
- Each chapter includes a summary of the phytochemical and pharmacological research conducted so far on the respective species

The aim of this book is to offer information about the Pharmacological Properties of Native Plants from Argentina to students, researchers and graduates interested in the fields of Ethnobotany, Pharmacognosy, Phytochemistry, Pharmacy, and Medicine. The book includes summary information about the native plants from Argentina with medical activity comprising their botanical characteristics, distribution, characteristics of the regions where they grow, ethnobotanical information, chemical data, biological activity, establishment of in vitro cultures, toxicity, and legal status.
