Global Catholicism, Tolerance and the Open Society

An Empirical Study of the Value Systems of Roman Catholics

- Presents an empirical study on the political and social values of Catholics around the globe, based on social survey data
- Highlights core problems, such as Catholic (in)tolerance and anti-Semitism
- Reflects on how the Roman Catholic Church is adapting to the requirements of a democratic and open society

This book systematically assesses the political and social values of the more than 1.3 billion Catholics around the globe, by far the largest denomination of Western Christianity. Based on an extensive analysis of data from the World Values Survey and other global opinion surveys, the book sheds new light on the value systems and opinions of Roman Catholics. The authors highlight core problems and challenges the Church is currently facing in adapting to the modern world, including Catholic anti-Semitism, religious and sexual tolerance, and opinions towards democracy, while also offering an anthropological reflection on how well the Church is adapting or failing to adapt to the requirements of an open society.
