# Mobile Brain–Body Imaging and the Neuroscience of Art, Innovation and Creativity

- Reviews research on the study of brain dynamics and mobile brain–body imaging research in innovation and creativity
- Language and multimedia focus emphasizes the building of bridges between the arts and neuroscience
- Describes applications of neuroimaging technology to promote understanding of human cognition and behaviour
- Uses case studies for researchers and practitioners wanting to enter the field
- Sets a roadmap for the future by acting as a repository of the open questions, challenges and opportunities

Mobile Brain–Body Imaging and the Neuroscience of Art, Innovation and Creativity is a trans-disciplinary, collective, multimedia collaboration that critically uncovers the challenges and opportunities for transformational and innovative research and performance at the nexus of art, science and engineering.
