Current Methods of Construction Design

Proceedings of the ICMD 2018

- Presents the latest research from leading international experts on machine design
- Features peer-reviewed papers on a range of themes from various disciplines
- Shares insights from an international conference

This conference proceeding presents contributions to the 59th International Conference of Machine Design (ICMD 2018), organized by the University of Žilina, Faculty of Mechanical Engineering, Department of Design and Mechanical Elements. Discussing innovative solutions applied in engineering, the latest research and developments, and guidance on improving the quality of university teaching, it covers a range of topics, including: machine design and optimization engineering analysis tribology and nanotechnology additive technologies hydraulics and fluid mechanisms modern materials and technology biomechanics biomimicry; and innovation
