Popular Science: Popular Science in Economics

Frey, B.S., Iselin, D., Schaltegger, C.A. (Eds.), CREMA, Zürich, Switzerland

The Scholar’s Guide to Economic Ideas

21st Century Economics (1) and Economic Ideas You Should Forget (2)

- Provides leading scholars’ personal evaluations of the weaknesses and strengths of several core economics concepts
- Identifies the most important contributions to economics in the 21st century, recommended by leading scholars from all over the world
- Shows the weaknesses of various traditional economic concepts and ideas

This two-volume set presents a selection of commentaries by respected economists and social scientists that reveal the weaknesses and strengths of several core economics concepts. In the volume “Economic Ideas You Should Forget”, the authors question specific hypotheses and reject major economic ideas. In the volume “21st Century Economics: Economic Ideas You Should Read and Remember”, the authors state their personal opinion on what matters most in contemporary economics.
