# Magnesium Technology 2020

Series: The Minerals, Metals & Materials Series

- Definitive reference in the field of magnesium production and related light metal technologies
- Has presented the most recent developments, discoveries, and practices in magnesium for 20 years
- Contributions originate at one of the largest yearly gatherings of magnesium specialists in the world

The Magnesium Technology Symposium, the event on which this collection is based, is one of the largest yearly gatherings of magnesium specialists in the world. Papers represent all aspects of the field, ranging from primary production to applications to recycling. Moreover, papers explore everything from basic research findings to industrialization. Magnesium Technology 2020 covers a broad spectrum of current topics, including alloys and their properties; cast products and processing; wrought products and processing; forming, joining, and machining; corrosion and surface finishing; and structural applications. In addition, there is coverage of new and emerging applications.
