Operational Research in Agriculture and Tourism

7th International Symposium and 29th National Conference on Operational Research, Chania, Greece, June 2018

Series: Cooperative Management

- Presents a range of recent operational research techniques for agriculture and tourism management
- Covers applications to both for the primary and tertiary sectors
- Focuses on decision support systems for cooperative management

This book presents a diverse range of recent operational research techniques that have been applied to agriculture and tourism management. It covers both the primary sector of agriculture and agricultural economics, and the tertiary sector of the tourism industry. Findings and lessons learned from these innovations can be readily applied to various other contexts. The book chiefly focuses on cooperative management issues, and on developing solutions to provide decision support in multi-criteria scenarios.
