Disinformation, Misinformation, and Fake News in Social Media

Emerging Research Challenges and Opportunities

- Covers an interdisciplinary emerging research topic on disinformation and misinformation attracting increasing attention
- Contains recent advanced social computing, data mining, and machine learning methods
- Helps to understand the problems and challenges, learn state-of-the-art solutions for their specific needs

This book serves as a convenient entry point for researchers, practitioners, and students to understand the problems and challenges, learn state-of-the-art solutions for their specific needs, and quickly identify new research problems in their domains. The contributors to this volume describe the recent advancements in three related parts: (1) user engagements in the dissemination of information disorder; (2) techniques on detecting and mitigating disinformation; and (3) trending issues such as ethics, blockchain, clickbaits, etc. This edited volume will appeal to students, researchers, and professionals working on disinformation, misinformation and fake news in social media from a unique lens.
